

MECHANIZE NOW FOR GREATER PROFITS!

... and here's how:

These implements are a "must" for every Nurseryman, large or small. Growers everywhere are using more and more improved equipment. New ideas and better business practices are an unbeatable formula. With the continued high labor and other production costs coupled with falling nursery stock prices — it is no wonder that so many Nurserymen are using our implements, to cut production costs and at the same time produce better quality stock.

PLANTER

A REVOLUTIONARY
MACHINE THAT CUTS

PLANTING TIME IN HALF

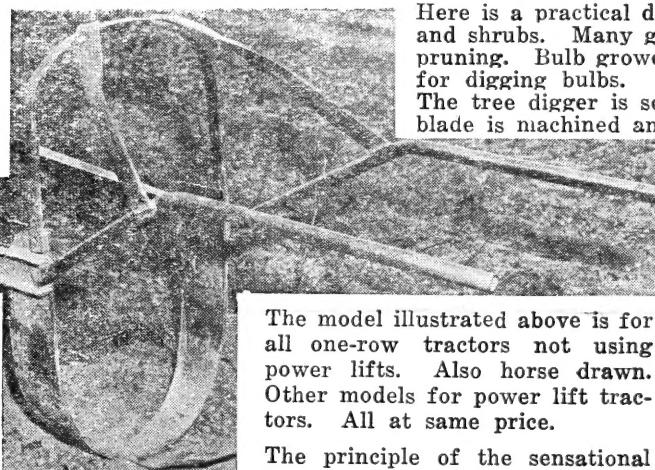

This startling new equipment not only cuts costs of planting — it insures uniformity. You get straight rows of even depth (adjusted to suit your needs) so that plants are left in good shape and easy to cultivate. The planting equipment is solid steel. It is actually two implements in one. A V-shaped forward piece levels the bed row to a smooth, flat surface. A sharp 20-inch disc roller slits a straight, narrow trench for your nursery stock. Both forward piece and cutting disc are adjustable to any height. Thus your planting trench may be cut to any desired depth. The equipment may be either horse or tractor drawn. Two sets may be installed on one 2-row tractor.

ITEM NO. 304: \$40.50

Attaching the planter to your tractor cultivator is easy and quick. All you need to do is remove the cultivator feet and insert the shanks of the planting equipment. The V-shaped piece which levels the row bed leaves a smooth, flat surface after the V has passed over it. The 20-inch sharp steel disc cuts a straight, even slot for planting. It may be adjusted to any depth desired.

Let Russell Wilson's labor-saving equipment cut your production costs! They enable you to grow and sell more high class stock at lower cost per plant. This means greater profit for every nursery man and florist who grows fruit trees, shade trees, shrubs, bulbs, evergreens, rose bushes.

IMPROVED TREE DIGGER

The model illustrated above is for all one-row tractors not using power lifts. Also horse drawn. Other models for power lift tractors. All at same price.

The principle of the sensational tree digger is simple. The U-shaped cutting blade, 22 in. across, glides under the roots. Welded to its rear edge is a tilted "apron" which lifts and loosens the soil so the plants can be lifted out easily.

ITEM NO. 306: \$75.00

Here is a practical digger for all types of trees and shrubs. Many growers use it also for root pruning. Bulb growers find it highly successful for digging bulbs. The tree digger is solid steel throughout. The blade is machined and shaped for greatest ease of operation. It can be adjusted to run shallow for digging shallow roots and vines; it can be set quickly and simply to go down and get those deep(tap)rooting trees and shrubs. The tree digger is manufactured in models to be pulled by either horse or tractor. The digger is made for tractors either with or without power lift. If you are using a tractor, be sure to give us make and model so you will get the digger with the right dimensions, etc., for quick, easy, installation hook-up. (The digger is not made for 2-row tractors).

MULTIPLY OUTPUT PER MAN 3-FOLD! with the HARDWOOD CUTTING MACHINE

Three men can do twice the work of five with this simple yet highly efficient machine. You can eliminate two men, yet double production—three can turn out 150,000 cuttings a day! The instrument is solid steel throughout. It is equipped with two cutting blades. The wood is placed between them, and the top blade is brought down by pressure of the operator's foot on a pedal, while both hands are free to handle the cuttings. The top blade is drawn back to starting place by a spring.

ITEM NO. 300: \$33.25

FELLOW NURSERYMEN:

Again this year there is a shortage of good field grown rosebushes. This means there will not be enough rosebushes to supply the demand. We are going to fill orders on a first-come, first-served basis. There will not be any surplus rosebushes to draw from after the 1st of January, 1957. Our shipping season begins October 15th and we suggest that whether you want a Fall 1956 shipment or a Spring 1957 shipment — that you place your order now. Rosebushes ordered for 1957 shipment will be placed in our own refrigerated storage facilities and reserved for your delivery date.

We are,
With best regards,

RUSSELL WILSON NURSERIES
W. R. Wilson, Manager

WILSON NURSERIES
WINNSBORO, TEXAS

Prepaid Delivery By Our Fleet of Fast Trucks Gives You Advantages You Will Certainly Enjoy.

We are grateful to the Nurserymen indeed for the overwhelming acceptance of our PREPAID DELIVERY PLAN on Rosebushes.

Each year, our Rosebush business increases by leaps and bounds. The Nurserymen have been quick to realize and take advantage of tremendous savings in shipping charges, plus these other advantages:

1. Low prices and no shipping charges to pay.
2. Ability to see and check stock before acceptance.
3. Rosebushes arriving in good condition.
